

Who are
we?

Family Help Center is a non-governmental organization and on the imaginary market of the third section is for eight years. For these times it has become a beneficial, well-founded, established and professional association which is organized by qualified experts, who make the long lasting name of the organization.

This is not just a job it is our mission. A mission of keeping family relationships strong, which helps to raise the children in responsible and safe way. Our programs and events provide solutions and prevention for families which need our help to create friendly atmosphere in their homes, where they can live happily ever after.

The aim of Family Help Center is not just preventive. We also help families in hard life situations and any kind of problems. The experts of the Center provide social, psychological, pastoral and legible counselling. We put emphasize on self-supporting meetings, where participants can discuss, analyze and understand each other without problems. These gatherings give them a chance to share their feelings, ideas and advice from their own experience. Trainings, seminars and conferences are well-established also. We perform marital, parental and social counselling for families.

Volunteers are the most valuable and extremely useful parts of every non-governmental organizations. Luckily we have a lot of precious members from the beginning and with their help within project SARA, They are help in Families is very popular between Families and volunteers.

In 2016 we created the sister project of SARA called project TEREZA which is dedicated to helping old people and those ones who need it the most.

On the other hand, volunteers are found in every single project of Family Help Center, for instance they help us to conduct the Family day and Carnival for the children. To pay back their kindness we offer them non-formal education and counselling.

The reward for us as organization is the independent ranking of Volunteer centers and organizations as one of the most valuable formation of volunteers.

SUMMARY for year-end review

Number of visitors in Trnava center	Number	591
Number of visitors in Piešťany center		105
Number of all realized activities		403
Number of participants in realized activities		2 631

In year 2016 we took part in the participative budget.

Counselling and attending helping families in hard times.

The developer of the project is the Family Help Center. It provides professional help for families and citizens by keeping them company and giving them support in hard situations. One of the forms is social counselling, then assistance in finding a job, counselling for child behavior, therapy and psychological diagnostics, therapy for families with psychiatric diagnosis of children and things like that. Trnava gives financial support for the Center and for its employees from October 2016.

Family Help Center got the 2nd place thanks to voting by inhabitants of Trnava.
